

CSWC Operational Period Summary

0600 July 11 2014 to 1800 July 11 2014

Cal OES Headquarters

SITUATION SUMMARY

Bully Incident, Vegetation Fire, Shasta County (Initial)

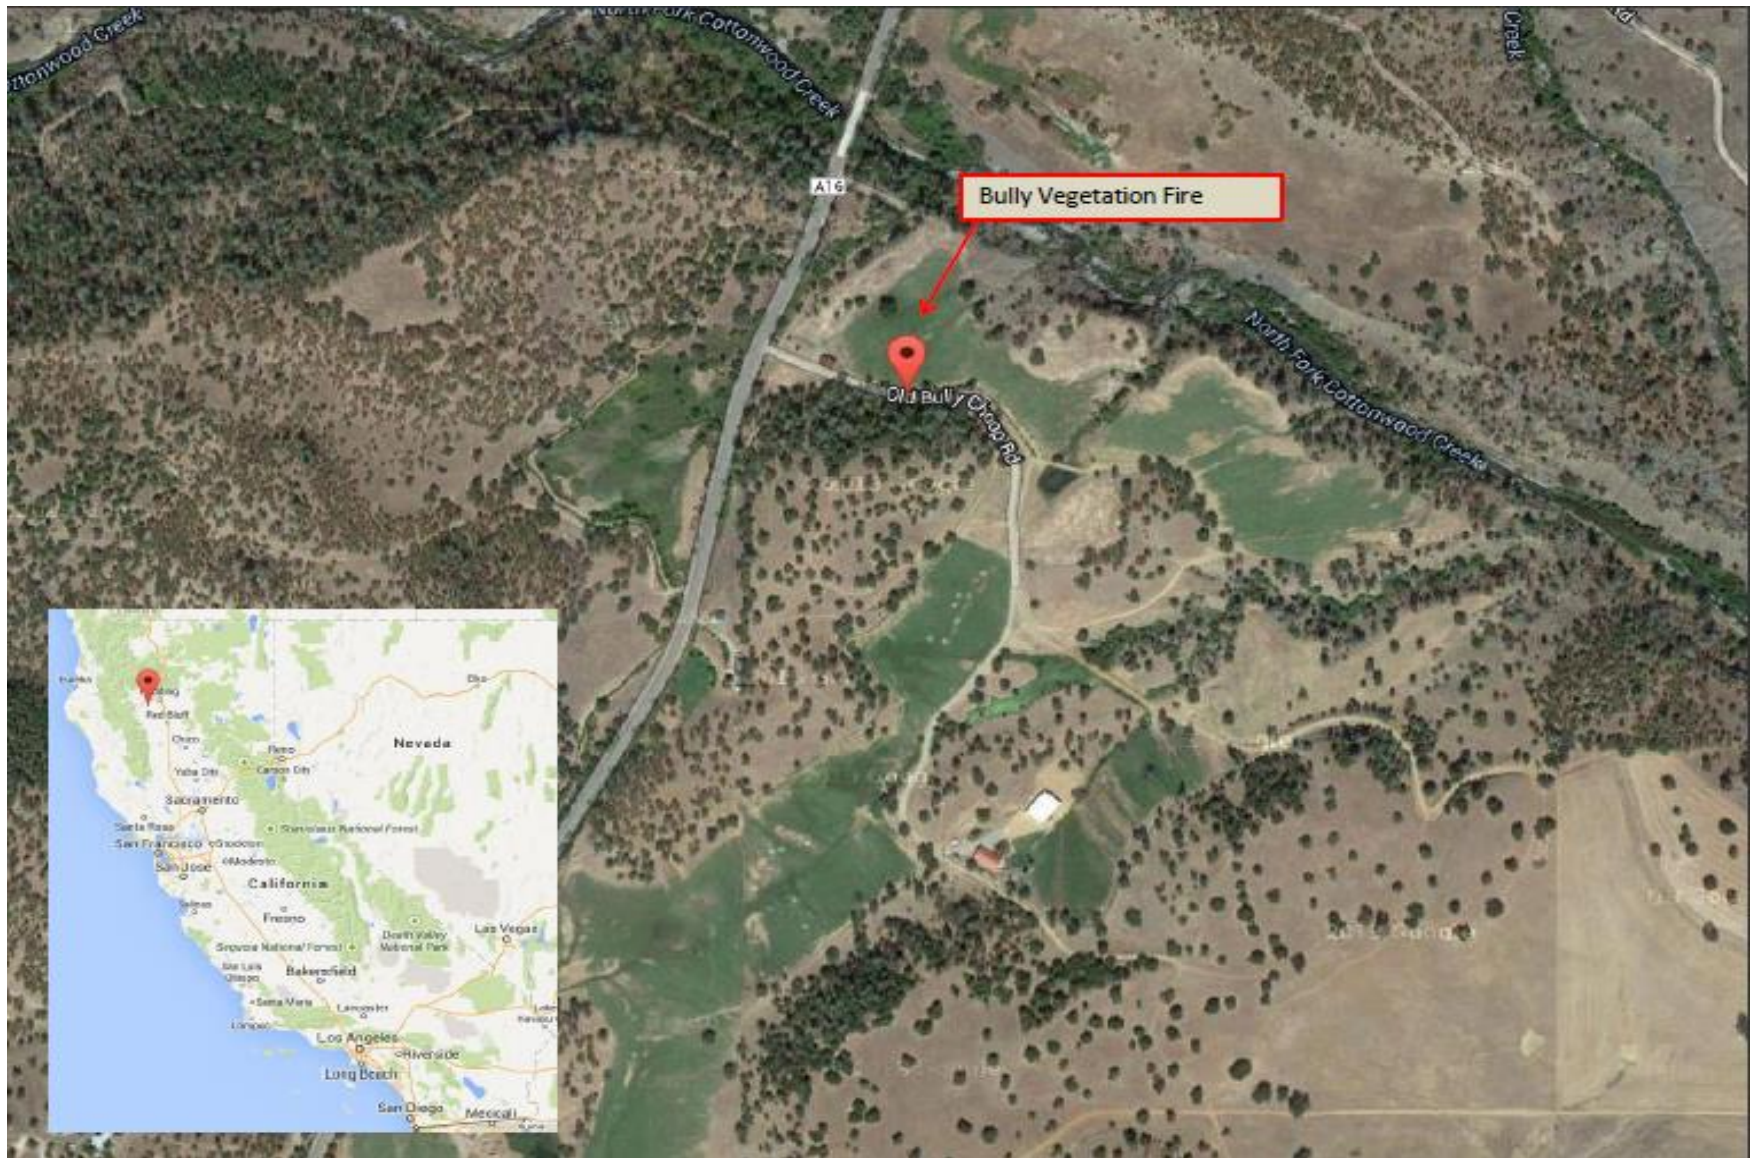

Fire Information:

Old Bully Choop Road, Community of Igo, Shasta County

Per CALFIRE and Cal OES Duty Officers as of approximately 1830 hours:

- 300 acres, 0% contained
- Moderate rate of spread
- Mandatory Evacuations along Platina Road
- Hard closure of Platina Road east and west of the fire area
- A Cal OES Assistant Fire Chief has been assigned to the Bully Incident as an agency representative

SITUATION SUMMARY

OF EMERGENCY SERVICES

SITUATION SUMMARY

6.8 Magnitude Earthquake, Honshu, Japan (Initial/Final)

- **Situation**

- On July 11, 2014 at 1232 hours Pacific Daylight Time, the California State Warning Center received a report indicating that a Magnitude 6.8 earthquake occurred at 1222 hours Pacific Daylight Time off the eastern coast of Honshu, Japan.
- The National Tsunami Warning Center issued a Tsunami Information Statement advising that there is no tsunami danger to Alaska or the Western United States to include California.

- **Impact to Japan**

- Japan Meteorological Agency issued a Tsunami Advisory of up to 3 feet on 7/12/14 at 0426 Japan Standard Time (7/11/14 1226 hours Pacific Daylight Time) for the coastal regions of Iwate, Miyagi, and Fukushima Prefectures within the Tohoku Region. There have been 6 tsunamis reported, the largest being approximately 8 inches. The Tsunami Advisory was then cancelled at 0615 hours Japan Standard Time.

- **NPP Impact**

- Per a Tokyo Electric Power Company spokesman, Onagawa Nuclear Power Plant, Higashidōri Nuclear Power Plant, and Fukushima Daiichi Nuclear Power Plant found no abnormalities.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

Northern California

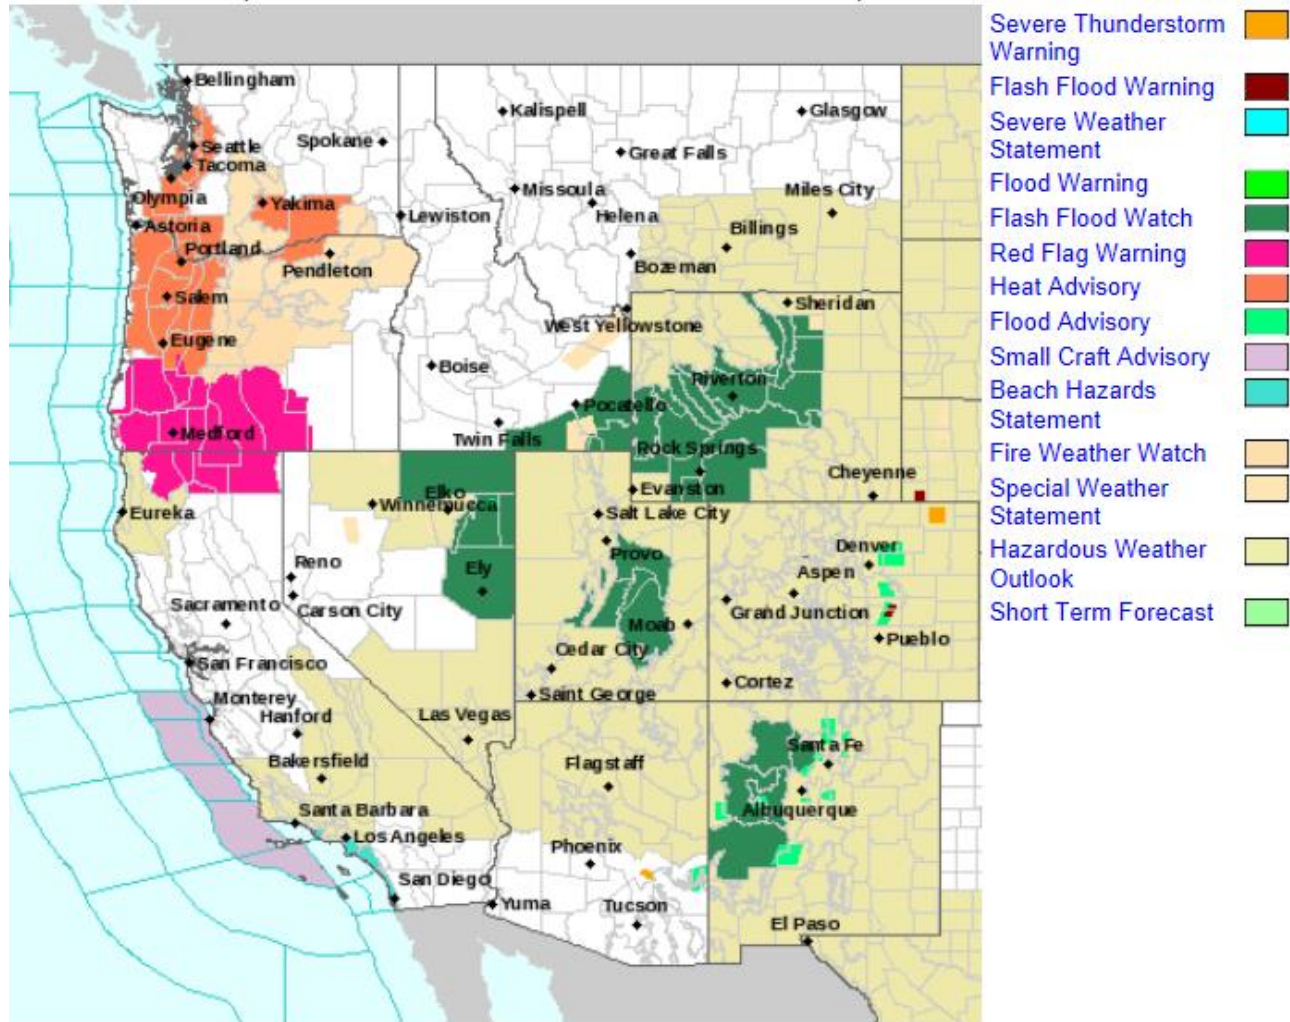

Last 24 hours had about 100 lightning strikes across Northern California. Much if it was across the Klamath National Forest with mixed wet and dry strikes. This activity took longer to develop this morning and, as a result, there could be continued lightning activity in Siskiyou and Modoc Counties into this afternoon. Further south it appears there will not be much more additional lightning activity across the Sierra as drier air punches in from the southwest this afternoon. So we will continue with a "High Risk for Lightning" across the Northwest Mountains and Northeast California PSA's but cancel the one previously in effect for the Sierra. Drying out over the weekend with a return to very hot and dry conditions next week as a strong high pressure ridge builds over California. There is also the possibility of scattered lightning across the Sierra and Cascades early next week as another push of monsoonal moisture approaches from the Southeast.

Southern California

A weak trough stalled off the coast will generate enough southwesterly flow to divert the "monsoonal" flow east of the Southern California during the next couple of days. Therefore, no thunderstorms are expected today or Saturday. Temperatures will be a bit cooler during the next two days due to onshore flow with valley high temperatures generally remaining in the lower to mid 90s. Despite the presence of a marine layer, minimum relative humidity may drop to around 10 percent in the mountains of Southern California above 4,000 feet today and Saturday. In addition, some wind gusts to 30 mph will be possible this afternoon across areas near the Antelope Valley and the Banning Pass. Early next week, high pressure is expected to build over Nevada which will lead to an easterly circulation across Southern California. Abundant subtropical moisture may be entrained into this flow, leading to scattered wet thunderstorms, especially south and east of Los Angeles County. Some storms may occur over the deserts Sunday with a better chance of storms reaching San Diego, Orange and Western Riverside County Monday. This moisture may get steered northward Tuesday and Wednesday which may lead to scattered thunderstorms returning to the Sierras by the middle of next week. Temperatures will warm back up to near 100 in the valleys by Sunday and Monday. The storms may depart Southern California by the middle of next week but thunderstorms may remain in the Sierras through next Friday.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday – Friday, 0800-1700 hours.

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- On 7/8/14 the State Water Board will publicly release proposed water conservation requirements to reduce water waste across the state. These proposed emergency regulations include mandatory restrictions on water use, and will be considered by the Water Board on 7/15/14.
- California Department of Fish and Wildlife staff evacuated trout from a major hatchery on the American River last week to avoid a massive die-off of fish due to increased water temperatures in the hatchery. Over two million fish are being relocated and released earlier than normal due to drought conditions.
- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

Situational Summary

Open Burn Ban in effect across the state: Open burning is now prohibited on 31 million acres of land across the state, due to a burn ban that CAL FIRE has directed each of its unit chiefs to implement. This ban on open burning in state responsibility areas (outside of cities and towns) reduces wildfire danger amidst extremely dry conditions.

The National Weather Service provided the following synopsis for the relationship of Blowing Dust Advisories and the drought conditions in southeast California: Dust storms are common due to increased thunderstorm activity and the winds produced with these storms, during monsoonal flows. The severity of the dust storms could be locally exacerbated by drought conditions. In any event, the public should monitor NWS for any advisories and warnings issued by NWS.

On July 1 2014, administration of the CDPH Drinking Water Program (DWP) transferred to the California State Water Resources Control Board (SWRCB) Division of Drinking Water. CDPH and the SWRCB entered a Memorandum of Understanding outlining a three-month transition period during which drought response activities and any other emergencies will be coordinated jointly between the two organizations.

OF EMERGENCY SERVICES

CAL OES MISSIONS

New Cal OES Missions

- **2014-LAW-4023** Butte County Sheriff's Office (BCSO) is requesting 8 area scent K9s and 24 ground personnel to assist in the search for 2 missing teenagers last seen at 1500hrs yesterday on Butte Creek in Butte Meadows. **Update 1029hrs:** BCSO advised that the teenagers have been located alive and well. **Mission Closed.**

Ongoing Cal OES Missions

- **2014-LAW-3978, Mission reopened.** San Bernardino Sheriff's Office requesting resources for a homicide investigation and will be conducting additional ground and mine searches beginning Sat, 7/12 at 0630 hours. Cal OES LDO is coordinating resources.
- **2014-LAW-4014,** Mendocino County Sheriff's Office is requesting a cadaver dog team for a search related to a homicide to be conducted sometime next week. Cal OES LDO is coordinating resources

CAL OES MISSIONS

Ongoing Cal OES Missions (cont.)

- **2014-LAW-2798**, El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.
- **2014-LAW-2481**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2483**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.

Closed Cal OES Missions

- **2014-LAW-3981** Glenn County Sheriff's Office (GCSO) requested Search and Rescue resources to assist in the search along the Sacramento River. Mission was suspended while reassessing further requests for additional searches. As of 7/11/14, GCSO advised that no additional searches are planned. **Mission Closed.**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
